

Initial Report for the CTNR TAC Meeting

The written report for the initial report meeting should be constructed as follows:

Cover page with the following information:

- your name
- members of the TAC
- matriculation number
- preliminary title of thesis
- starting date of the doctoral research (according to contract)
- the due date of the Initial Report and the date of the oral presentation

Report with the following information:

- Introduction to the scientific problem (1-2 pages)
- Preliminary results obtained so far (no original data) (up to one page)
- Detailed outline of future experiments and their rationale (up to two pages)
